Re: Romic SW RCRA Facility Investigation
Romic SW RCRA Corrective Measures Study/Report
Romic Consent Order, Docket No. RCRA (AO)-09-2008-03 &
First Amendment, Docket No. RCRA-3008-09-2008-0003

Dear Mr. Alger:

At the North Central Groundwater Project Coordination Meeting in March, 2014 and our Corrective Action specific meeting in June, 2014 you indicated that the RCRA Facility Investigation (RFI) and Corrective Measures Study (CMS) phases of work involving the former ROMIC Environmental Technologies Corporation (ROMIC SW) facility, located in the Gila River Indian Community (GRIC) have been completed. In accordance with the order, and after consultation with the GRIC Department of Environmental Quality (GRIC DEQ), I am directing you to submit the final RFI and CMS Reports to US EPA not later than August 8, 2014.

In keeping with the Triadic approach that we have used throughout this project, and our numerous discussions I am asking that you to submit separate RFI and CMS Reports with the following qualifications:

The RFI Report should be a single document with the attachments indicated below:

- An Executive Summary of the RFI and Interim Corrective Measures (ICM) that includes a timeline and description of the process and phases of work,
- The RFI Report,
- Attachment of the most current Conceptual Site Model,
- Attachment of the most current Environmental Indicator Report,
- Attachment of the most current Risk Assessment and Clean-up Standards,
- Attachment of an ICM Completion Report that provides a narrative description of activities and references all workplans and reports,
- Attachment of the final Community Relations Plan (still under development), and
- Attachment of a list of all products, workplans, and reports used to complete the RFI and attachments; to include products generated by other organizations and agencies (such as Plymouth Tube & GRIC DEQ),

US EPA RFI/CMS Call-in Letter to Iris Environmental – (2)
Re: ROMIC SW
June 17, 2014

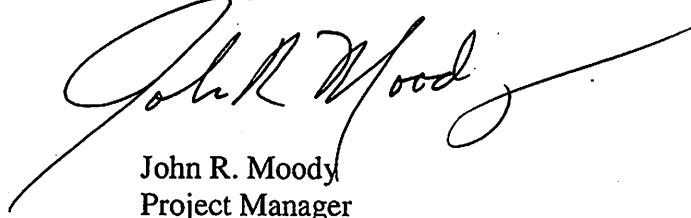

The CMS Report should be a single document with the attachments indicated below:

- An Executive Summary of the CMS and Report,
- The CMS Report, and
- Attachment of a list of all products, workplans, and reports used to complete the CMS; to include products generated by other organizations and agencies (such as Plymouth Tube & GRIC DEQ),

I encourage you to consult upon and share drafts of the Romic SW Reports with US EPA and GRIC DEQ as they are developed.

If you have any comments or questions concerning this letter please contact me at (415) 972-3346 or [moody.john@epa.gov].

Sincerely,

A handwritten signature in black ink, appearing to read "John R. Moody", with a long, sweeping horizontal line extending to the right.

John R. Moody
Project Manager
